
COASTAL
TECHWORKS
Luxury Home Systems
California's
Artisan of Home Technology

The guidance to give homeowners the technology they need for the lifestyle they want.

An integrated home is characterized by the combining of elements from many different sub-systems to function together as one. As experts in home systems integration, Coastal Techworks is the solution to a home designed for the lifestyles of today and technologies of the future.

Coastal Techworks is a leader in home integration specializing in the design and installation of structured wiring, distributed audio, home theater, lighting control, surveillance systems, and more — staying on the cutting edge of technology while meeting the ever-changing needs of our customers.

Mark Neville

Mark Neville
Managing Partner

This home features:

Automation System: Crestron
Motorized Shades: Crestron
Lighting Control: Crestron
HVAC Control: Crestron
Audio/Video: Marantz, Samsung, Sonos
Speakers: James Loudspeaker
Subwoofers: James Loudspeaker
CCTV Cameras; Luma Surveillance
Data WiFi Network: Araknis Networks
Access Control: 2N - Holovision

LIGHTING CONTROL
This homeowner can create and control their indoor and outdoor "atmosphere" with smart lighting.

Planning for Perfection

Effective systems integration require careful planning, layout, and design. Coastal Techworks offers advanced system design services. From automation control of various subsystems to fully themed home theaters.

AUTOMATION
Control of your home through a user interface like this touch panel allows for complete functionality while maintaining a consistent look and feel throughout.

Process of a Craftsman

Builders
Use Coastal Techworks as a tool to ensure everything is completed to your high standards and to the complete satisfaction of your clients. We are craftsmen at our trade and will perform diligently throughout the process. We work hard to make sure you look good!

Architects
Collaborate with us to find ways of wowing your clients. We can provide AutoCAD documentation for just about anything you'd like to include in your plan sets, i.e. mechanical roller shades, lighting control cabinets, equipment racks, etc. We are here to help you in anyway possible.

Designers
Working side by side, we can help deliver your vision to the client without tacky wall clutter or other visible distractions. We are design sensitive and strive to remain working silently in the background. Let your vision take center stage, we can deliver with total confidence all while remaining completely anonymous.

Homeowners
Delivering on our promises is what we've built our reputation on for years. Staying true to our values while creating some of the finest systems imaginable has been our driving passion. We appreciate the opportunity to help bring to life your visions and look forward to our next project together.

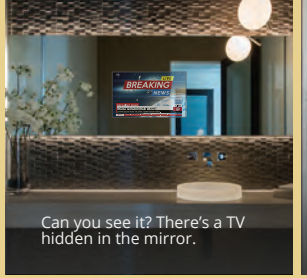

WHOLE-HOUSE MUSIC
Distributed audio systems featuring architectural loudspeakers nearly invisible to the eye but acoustically superior in performance.

AUTOMATED WINDOW TREATMENS
Concealed roller shades built into existing window mullions drop down over 12' to reduce sun glare.

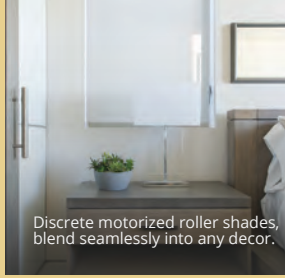

AUDIO VIDEO
Discrete audio/video systems that maintain the desired design concept while providing an unparalleled visual and sonic experience.

Multi-zone climate controls help keep the wine collection at the perfect temperature.

Can you see it? There's a TV hidden in the mirror.

Discrete motorized roller shades, blend seamlessly into any decor.

Gate access provides two way video communication with interior touch panels for ultimate security.

Tech & Decor

If aesthetics are important to you, ask one of our team to design your system in such a way that eliminates light switches, volume controls, keypads, thermostats and replaces them with several conveniently placed touchscreens overall reducing "clutter" on the walls.

Why Us?

At Coastal Techworks we understand that lasting relationships can be built by demonstrating integrity, trust, commitment and dependability. Above all else, we value the relationships we develop with our clients. We're confident that you will find our service, attention to detail and commitment to your satisfaction to be the best in the industry.
